

Wisconsin's Inland Trout Streams

County Base (Default) Regulations

Although specifically not colored (green, yellow or red) streams would be regulated under the default regulation for that county (yellow, in this case).

This map displays the default county regulation of a water if it is not already shown in color on the map (i.e., The "All Waters Not Listed" items in the *Trout Fishing Regulations and Guide*).

Consult the *Trout Fishing Regulations and Guide* for base regulations for lakes Michigan and Superior tributaries.
